

# REGISTRO PUBBLICO DELLE IMPRONTE INFORMATICHE

Il Registro Pubblico delle Impronte Informatiche è uno strumento sperimentale offerto gratuitamente da Diritto Pratico pensato per fornire un elemento di prova circa la data di formazione di uno specifico file.

**ATTENZIONE!** L'annotazione nel registro non sostituisce e non è equiparabile al versamento del documento informatico in un sistema di conservazione né può costituire un'alternativa quando ciò sia espressamente richiesto dalla legge. La marcatura temporale del presente registro consente tuttavia di provare che **tutti i files le cui impronte figurano nell'elenco sono stati formati in data sicuramente anteriore a quella certificata dalla marca temporale.**

In tutti i casi ove non sia richiesta la formalità di una certificazione temporale da parte di una TSA accreditata, la semplice annotazione nel registro costituisce comunque un indizio preciso e come tale valutabile anche in sede giudiziaria ex [art. 2704 c.c.](http://art.2704.c.c.). Diritto Pratico sfrutta la "memoria di internet" per attribuire, in modo del tutto gratuito, data e ora "plausibilmente certe" a qualsiasi file. I registri mensili sono infatti indicizzati dai motori di ricerca e, in particolare, da servizi di "internet preservation" quali [Wayback Machine](http://Wayback Machine) e [archive.is](http://archive.is): se l'impronta del file di interesse è riscontrabile anche in una "trusted snapshot" le possibilità che il file cui appartiene la specifica impronta possa essere stato formato in data successiva a quella di acquisizione dell'istantanea medesima sono praticamente nulle.

## Impronte annotate nel mese di maggio 2017

IMPRONTA (SHA256)	LOCALE	UTC

Totale impronte annotate: 313

L'annotazione nel registro non sostituisce e non è equiparabile al versamento del documento informatico in un sistema di conservazione né può costituire un'alternativa quando ciò sia espressamente richiesto dalla legge. La marcatura temporale del presente registro consente tuttavia di provare che **tutti i files le cui impronte figurano nell'elenco sono stati formati in data sicuramente anteriore a quella certificata dalla marca temporale**. In tutti i casi ove non sia richiesta la formalità di una certificazione temporale da parte di una TSA accreditata, la semplice annotazione nel registro costituisce comunque un indizio preciso e come tale valutabile anche in sede giudiziaria ex [art. 2704 c.c.](#). Diritto Pratico sfrutta la "memoria di internet" per attribuire, in modo del tutto gratuito, data e ora "plausibilmente certe" a qualsiasi file. I registri mensili sono infatti indicizzati dai motori di ricerca e, in particolare, da servizi di "internet preservation" quali [Wayback Machine](#) e [archive.is](#): se l'impronta del file di interesse è riscontrabile anche in una "trusted snapshot" le possibilità che il file cui appartiene la specifica impronta possa essere stato formato in data successiva a quella di acquisizione dell'istantanea medesima sono praticamente nulle.
